# Organizational Structure – Al Mosheer Modern Security

A clear organizational structure enables Al Mosheer Modern Security to maintain efficient operations, defined responsibilities, effective communication, and accountable service delivery across all client sites.

## Executive Management

Provides strategic leadership, governance, decision-making, and overall supervision of company performance.

## Operations & Security Division

Manages daily security operations, guard deployment, site coverage, shift planning, and service delivery.

## Regional Security Managers

Supervise security operations across assigned regions and ensure compliance with client requirements and company procedures.

## Site Security Supervisors

Lead on-site security teams, monitor guard performance, ensure protocol adherence, and respond to incidents.

# Organizational Structure – Al Mosheer Modern Security

## Security Officers & Guards

Frontline personnel responsible for protecting client sites, controlling access, monitoring activity, and reporting incidents.

## Human Resources & Training

Handles recruitment, screening, licensing, staff records, training programs, and continuous skills development.

## Technology & Security Systems

Oversees CCTV, access control, monitoring systems, communication tools, and security technology implementation.

## Compliance, Risk & Quality

Ensures adherence to regulations, company policies, safety standards, risk assessment procedures, and service quality.

# Organizational Structure – Al Mosheer Modern Security

## Business Development & Client Relations

Manages client communication, proposals, contracts, satisfaction follow-up, partnerships, and account development.

## Finance & Administration

Manages budgeting, payroll, procurement, documentation, administration, and financial control.

شركة المشير الحديثة للدراسات الأمنية  
Al Mosheer Modern Security Co.

# Our Achievements

شركة المنير الحديثة للحراسات الأمنية  
Al Mosheer Modern Security Co.

# Training & Development

- ❖ Guard Recruitment, Screening & Vetting
- ❖ Security Awareness & Site Protocol Training
- ❖ Defensive Tactics & De-escalation

- ❖ Emergency Response & Crisis Management
- ❖ Fire Safety & First Aid
- ❖ Customer Service & Professional Conduct

- ❖ Radio Communication & Incident Reporting
- ❖ Continuous Skills Development

# TRAINING & PROFESSIONAL STANDARDS

## Licensed

All our security guards are properly licensed and authorized to perform their duties. Each guard carries the required active license and identification while on duty.

## Trained

Our guards complete structured security training before deployment. Ongoing training is also provided for security officers, supervisors, and site teams to maintain professional performance.

## Fully Equipped

Our guards are equipped with communication devices and approved security tools to support fast coordination and effective response. All equipment is carried and used in accordance with applicable laws, permits, and client-site requirements.

## Presentable

Our guards report to duty in clean, professional company uniforms. Uniforms are properly pressed, shoes are polished, and overall appearance is maintained to reflect discipline and professionalism.

## Protocol-Oriented

Site protocols, responsibilities, emergency procedures, and reporting lines are clearly explained to every guard assigned to the location. This ensures each team member understands their role and follows the client's operational requirements.

## Punctual & Reliable

Our punctual and reliable guards help maintain the safety, security, and smooth operation of each client site.

# Licensing & Compliance

Committed to regulatory compliance, professional standards, and responsible operations.

## Licensed Security Provider

Operates as an authorized security services company in Saudi Arabia.

## Regulatory Compliance

Adheres to applicable laws, sector regulations, and client requirements.

## Guard Licensing & ID

Ensures personnel are screened, licensed, and properly identified on duty.

## Safety Standards

Follows health, safety, and emergency response requirements at client sites.

## Incident Documentation

Maintains reporting, escalation, and documentation procedures for site incidents.

## Confidentiality & Data Protection

Handles site information and surveillance data with discretion and care.

# Quality Assurance & Supervision

Structured oversight, performance monitoring, and continuous service improvement.

## Supervisor Site Visits

Routine inspections ensure smooth operations and visible leadership at client sites.

## Attendance Verification

Monitors guard attendance, punctuality, and shift continuity.

## Uniform & Appearance Checks

Confirms professional presentation and compliance with company standards.

## Performance Evaluation

Measures guard conduct, alertness, and service effectiveness.

## Incident Review & Reporting

Tracks incidents, follow-up actions, and reporting accuracy.

## Client Feedback & Corrective Action

Captures client input and applies improvements to service quality.

# Service Level Commitments

Reliable response standards and operational support that clients can depend on.

## Rapid Site Mobilization

Deployment planning and site start-up aligned with project requirements.

## 24/7 Operational Coverage

Continuous service support with coordinated round-the-clock availability.

## Shift Reliability

Consistent guard attendance and seamless shift handover procedures.

## Supervisor Support

Regular supervision, inspections, and operational follow-up.

## Incident Escalation

Prompt response, escalation, and communication for critical incidents.

## Reporting & Review

Daily, weekly, and monthly reporting with ongoing service evaluation.
